"Database"

The diagram shows a spreadsheet application for a currency converter. The formula bar shows the formula: `=A4 * VLOOKUP(B4,F4:G11,2,FALSE)`. The spreadsheet is divided into three layers: the Business and data layer (the formula and the data table), the Presentation layer (the user interface elements like the input fields and the output field), and the "Database" (the exchange rate table).

The screenshot shows a search engine interface with a dark theme. At the top, there's a search bar containing 'python testing' and a magnifying glass icon. Below the search bar, there are navigation links: 'Alle', 'Bilder', 'Videoer', 'Nyheter', 'Kart', 'Shopping', and 'Innstillinger'. A status bar below these links shows 'Norge', 'Sikkert søk: moderat', and 'Når som helst'. The search results are listed below, each with a URL, a title, and a brief description.
